No More Homeless Pets KC is working towards a day when there will be no more homeless pets in Kansas City. Our programs include:

- providing high quality, low cost spay/neuter services to low income pet owners,
- promoting Trap-Neuter-Return as the humane solution for the free roaming cat population
- assistance to inner city backyard dogs and pets from economically disadvantaged homes
- promoting adoption from shelters and rescue groups
- other lifesaving programs in partnership with our animal welfare partners

Your donation helps support this work and directly benefits the under-served animal population of greater Kansas City.

NMHPKC is a 501(c)(3) non-profit organization and the value of your donation is tax deductible as allowed by law.

Thank you!!
